

Hello

My name is Esther Casmas. I am a form three student who have just received my form two national examination results. I feel very happy and grateful to God for helping me perform very well. I know I could have done better than that but I will keep up the spirit of studying very hard and harder and I promise to do better in my form four national examination. I will also strive to help my fellow students by teaching them and helping them in their studies, whenever they need my help so that they can perform very well. I really thank God for working through different people to help me reach the stage I am at today especially the UK supporters, the Bethany leadership, the care workers, the teachers and my fellow children for their prayers, encouragement, dedication, commitment, support and sacrifice. May the Lord bless the work of your hands.

THANK YOU

VERY MUCH
