

Hello

my name is Shilinde Edward, I really thank God for everything he has provided for me since I was a young boy till now, because he has help me through my supporters in England, the Bethany care workers and teachers and my fellow children. I thank again God because he has enabled me to reach this new year 2021 and get my Form 2 national examination results. Because of people's sacrifices I have performed well, although there is some of the subjects I still struggle I promise to improve and get good grades. I really pray to God that, he helps me and guide me to continue this way and do more better, and I pray that God blesses, guides and protects all people who have supported me from when I was born till now, I thank all people who have sacrificed their love, care towards me.
