

Hello!

My name is Tabitha - Biligeya I am in form three I would like to say thank you to God for my form two results. Because if it wasn't for God these results wouldn't be possible also would like to thank you for the supporter if it wasn't for God working in you I would not have this education. I am really happy for my results but I wish I could do better than this. I am going to study very hard especially math and physics so that my performance can improve in my next examination. Also I will improve my behaviour because it is said education without character is nothing.

THANK

YOU
