## CLASS SIX TERMINAL REPORT JUNE 2021

CLASS TEACHER: MATHIAS THOMAS SAMSON

It is with great joy that I present class six terminal report for June 2021 to you Mrs. Zephaniah. It is almost the end of the first term of the academic year 2021, and with all that has happened good or bad, I and class six pupils are evermore thankful to God that he has been faithful to us.

Class six pupils have attended school very good except Monica Malima who is sick almost for five months now. Lucy Bahati and Madirisha Mang'oma missed some days because of sickness and their parents reported to the class teacher about that problem.

### **Class progress**

All the class six pupils and the subject teachers continue to work very hard as one of our class and school rules so as to improve the academic performance. To make this in action, teachers are using extra time to teach the pupils, whereby pupils are required to come to school on Saturday to learn science and mathematics. This program is active although some parents tried to forbid their pupils with no genuine reasons. These parents are parents of Lubinza Mashaka, Josephina Petro, Lucy Bahati and Elias Majiji. As a class teacher I warned them and educated them about that habit and now we thank God we are good.

Also pupils who didn't love learning like Lucy Bahati, Maria Mwita, Mathayo Peter and Caren Ezekiel have tried to show interest in studies although not much in such. I'm still keeping motivating them to love learning in their life.

However, the class timetable in class six to some extent was not followed accordingly, this was due to the introduction of Vocational skills subject which replaced the session of Religion.

More to the point, my class has advanced in terms of cooperation; all pupils are ready to cooperate in different class matters which are part of their curriculum and extra curriculum activities.

## **Pupils Behaviour**

Class six pupils are generally in good form and all are behaving very well. I haven't had any major disciplinary issues to deal with recently. This is due to endless counseling and guidance given to them by the class teacher.

## **Suggestions for the next term**

To start with, Pupils are asking enough time for vocational skills so as they can learn more skills; currently there is only 30 minutes to teach vocational skills subject which is not enough.

Also, to do exams competitions between class six and class seven, also between class six and class five. This will help pupils to challenge themselves with both their upper class and lower classes.

In addition, we are kindly asking to have Bibles in the classroom for pupils to read basic bible knowledge which can help them not only to answer the Religion examinations but also to live morally in the community.

Class six pupils and I, we are so thankful to all people who are helping the class to be excellent academically, spiritually as well as socially. May our Heavenly LORD bless you plentifully.

*Every blessing  
Mathias Thomas Samson  
Class Teacher*
