

THE BETHANY PRE AND PRIMARY SCHOOL

ACADEMIC MID-TERM REPORT SEPTEMBER 2021

ACADEMIC TEACHER: MATHIAS THOMAS SAMSON

It is such a joy to be the academic teacher at the Bethany Pre and Primary school and have the opportunity to continue serving the vision and provide the best education to all our lovely children. It is just about the end of the mid-term of the academic year 2021, and with all that has happened good or bad, I am all the time more thankful to God that has been faithful to us. It is with abundant gladness that I present the academic mid-term report for September 2021 to you Mrs. Zephaniah.

Quality of teaching and learning at School

To start with **Pre-school and key stage one** classes, teachers are continually assessing the progress and achievements of pupils, and plan for their learning programs. Pupils from *baby class, small toddlers, big toddlers, reception class, class one and class two* are well evaluated in Reading, Writing and numeracy and most of them are doing excellent as shown in the figure below;

	Numeracy	Reading	Writing
Secure	128	134	124
Developed	41	34	44
Below	5	6	6

Figure 1. Assessment report of pupils from class 1, 2, reception, big toddlers, small toddlers and baby class

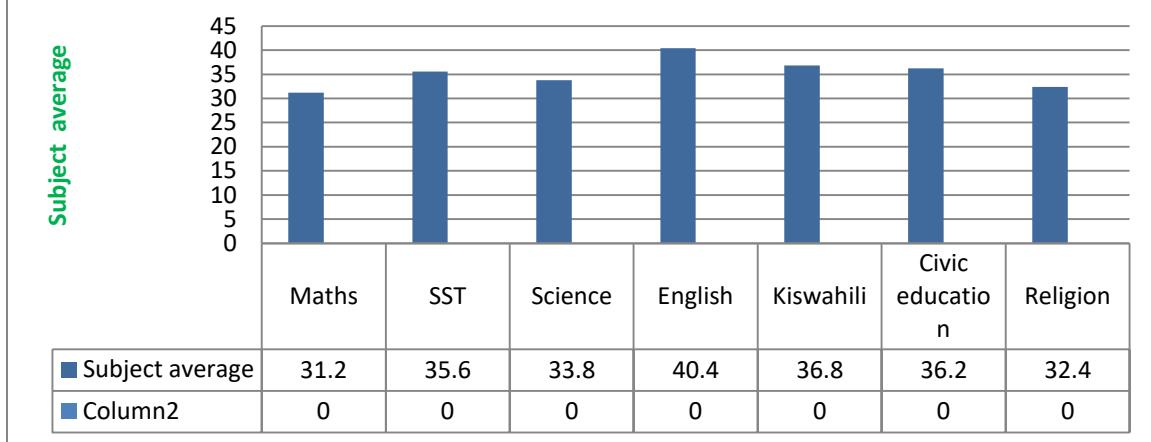

Also in class **three, five and six**, both teachers and pupils had jointly cooperated to meet the school targets by assisting each other on the suitable teaching and learning methodologies to deliver effective knowledge, values and skills to the pupils which can last long. There is a high and advanced performance in academic as revealed on the results from teachers.

Moreover, parents are given the best opportunity to be involved with their children's education in which they are asked to make appointment with their children's teachers to discuss the progress of their children both academically and socially at any time during the term.

Furthermore, examination classes (**class IV and VII**) pupils are doing well in academic both internal and external exams. Before the class seven national examinations, the trend of their academic performance was very good (**37** average), this shows that even in their last exams they will standout and shine. Class four pupils have the overall class average of **35 (grade B)**. In this class, teachers had set up different strategies for advancing pupils academically before the Standard Four National Assessment which will be held on 28th and 29th October 2021.

Generally, teachers and pupils are working to the maximum so as to meet the school targets. The teaching of mathematics as one of our main target this term is of higher standard, whereby the performance has changed from **27** average last term to **31.2** this term, This is due to the maximum cooperation given by all teachers to the mathematic teachers in teaching this subject, especially singing of timetables everyday morning and daily homework of this subject. Not only that but also even other subjects are highly Considered and their performance is good as shown in the graph below;

Termly Subjects performance

Recommendations of the department

As academic teacher, I recommend the following to be considered if possible;

- a. Buying of TIE and Longhorn text books for Baby class, small toddlers and big toddlers.
- b. Buying of Teachers' guide books and syllabuses of the new education curriculum.
- c. Enrich ourselves through teaching development (TD) and other sources of knowledge about examination system in Tanzania and in the World in general.
- d. To motivate both teachers and pupils even morally for their hard working and achievements especially after the National examination results. This can create moral readiness to both teachers and pupils to do the excellent in their daily school activities.

In the main, I am so grateful to both Tanzanians and non-Tanzanians who are serving the learning and teaching activities at The Bethany Pre and Primary school in different ways like financially, morally and materially. They are making our pupils to shine in different spheres of life like academically, socially and spiritually. May our Heavenly LORD bless you plenteously.

*Every blessing
 Mathias Thomas Samson
 Academic Teacher*
