

THE BETHANY PRE AND PRIMARY SCHOOL

BIG TODDLERS MID TERM REPORT AUGUST 2021

( MISS FRED)

Dear Mrs Zephaniah, I am glad to send my report, however my report will base on the following issues;

- Introduction
- Teaching and learning progress
- Classroom targets
- Archivevement
- Challenges
- Suggestions
- Conclusion

INTRODUCTION

Firstly, I would like to thank almighty God for his love and mercy which he has blessed us with. Also I would like to thank Mrs. Zephaniah for her hard working towards the school and her trust in me to be a big toddlers class teacher.

TEACHING AND LEARNING PROGRESS

Secondly, teaching and learning process is well practiced since the teaching and learning methods and techniques are taking place in the classroom, Also the pupils are able to read and write the sounds letters, reading cvc words, simple sentences and counting numbers from one to one hundred as well writing them on figures also the children are able to write numbers in words from one to twenty effectively although there are some of the pupils who are struggling to read the simple sentences and mixing numbers when counting and writing in figures as well as in word and these are ENOCK SAMSON MATHIAS and GLORY GELARD. Generlly the teaching and learning process is taking place effectively and I am very happy because some of the pupils who were struggling last term have improved alot and working very hard.

CLASSROOM TARGETS

So far my pupils have attained the classroom targets which I made for each subject, and the targets for Numeracy were counting numbers in English from 1 to 100, writing numbers in figures from 1 to 100

and writing numbers in word from 1 to 20. In Literacy was to write and read all the alphabets (A to Z), writing and reading CVC words and to read and write simple sentences accordingly.

#### ACHIEVEMENTS

Thirdly, I am happy that this term the pupils are able to read the letter sounds, cvc word, simple sentences well as writing them although there are 2 pupils who are still struggling to write cvc words, simple sentences and also the pupils are able to count from one to hundred as well as writing numbers in figures and writing numbers in words from one to twenty very well also I'm so proud of my pupils because all of them are able to speak English, there for they can express their opinions and feelings in English language. Not only that but also according to my classrooms targets have achieved because the pupils have attained the targets.

#### CHALLENGE

Fourthly, any area where there is positive progress there must be challenges. So the biggest challenge in my class is the absenteeism of pupils due to the illness fact.

#### SUGGESTION

As the result of that challenge I have tried to advise the parents of those absentees children and to provide strategies that will get their children to school and to give a report to a class teacher when their children are ill.

#### CONCLUSION

Finally, I would like to express my sincerely gratitude to Mrs. Zephaniah for her efforts towards the school visions and targets. Also great thanks to my fellow teachers for their effective cooperation in everything at school.

I would like also to thank all the supporters for their generous support, may the Lord continues to bless the works of their hands.

Yours in christ

JACKLINE CHRISTOPHER FRED

Big toddlers class teacher.
